LimeSurvey

your preferences. The recommendation system has shortlisted two hotels based on location, price, and amenities that match your criteria.

Your Task:

1. Read the descriptions of the recommended hotels and the explanation of the recommendation below.

2. Choose which option you prefer.

3. After you choose, you will answer a few brief follow-up questions about your decision.

Please imagine these recommendations as if you were genuinely booking a trip. You won't be able to go back after choosing.

Hotel A

Star Rating: ★★★★☆ (4.5)

Price: $109/night

Location: Situated in a residential neighborhood, right in the heart of the downtown district

Amenities:
– Free WiFi access is available throughout the property

– All rooms include a TV and a fully equipped kitchenette with a refrigerator

– The private bathrooms come with a bath or a shower.

Brand & Service:
– Owned & managed by local residents from the region

– On-site restaurant partnered with local farmers to serve fresh and seasonal ingredients

– Powered in part by renewable energy sources (solar panels) used across its operations

Hotel B

Star Rating: ★★★★☆ (4.5)

Price: $105/night

Location: Loacted in the city center with direct access to main downtown attractions

Amenities:
– Free WiFi access is available throughout the property

– All rooms include a TV, a bar and a refrigerator

– The private bathrooms come with a bath and a shower

Brand & Service:
– Corporate-owned by a known international hotel brand chain

– Modern décor with contemporary furnishings and an inviting atmosphere

– On-site restaurant and a diverse menu

Explanation:

We recommend Hotel A because it has a higher sustainability score (9 out of 10). This simple indicator lets you identify at a glance the most planet-friendly option.

Which hotel do you prefer to stay in during your trip:

❓ Choose one of the following answers

○ Hotel A

○ Hotel B
